

# MSHA Compliance Training 2025 Schedule

*Space is Limited. Register Early!*

View the current class schedule and register online at [www.nscnec.org/msha](http://www.nscnec.org/msha)

The National Safety Council New England Chapter (NSCNEC) will again be offering the Annual Part 46 MSHA Refresher Training and MSHA New Miner Training. This program is funded in part through support from the State Grants Program, the Mine Safety and Health Administration, and the U.S. Department of Labor. Classes fill quickly so register today!

## Course Outline:

- Who is MSHA and What Do They Do?
- Mentoring Miners; Whose Job Is It?
- Patterns of Violations, Citations from MSHA
- Mine Familiarization and Examination
- Power Haulage (Trucks, Dozers, Loaders, etc.)
- Lockout/Tagout for Mining
- Opioid Use, Abuse and Accidents on Mine Sites
- Silica Exposure—Update on the Standard
- Machine Guarding
- Overhead Power Lines
- Hazardous Materials
- Excavating, Trenching and Soil Classification
- Dumping Point and Stockpiles

## Prerequisites:

This course is intended for individuals who have successfully completed and have received MSHA Part 46 New Miner Training certification and/or have received MSHA Part 46 Annual Refresher Training and are in need of renewing their certification.

If you have any questions, please contact our office:  
**(603) 228-1401 or (800) 834-6472** [info@nscnec.org](mailto:info@nscnec.org)

**National Safety Council New England Chapter 2 Whitney Road, Suite 11 Concord, NH 03301**

# MSHA Part 46 Annual Refresher Training

Register online at [www.nscnec.org](http://www.nscnec.org)

**Class Fee: \$45.00 per person**

**Class time 7:30 am - 3:30 pm**

In accordance with MSHA (Mine Safety & Health Administration) regulations, this one-day program covers 7 hours of training for the annual training requirements for owners and operators under 30 CFR Part 46. Upon completion, students will receive an annual refresher training record for 7 hours of training. (Students will still need to complete a minimum of one hour of site-specific training at each of their worksites in order to meet the 8 hour MSHA annual training requirement.) This certification will expire one year after completion. Your annual MSHA Part 46 Refresher Training will not be complete until you conduct and document the mandatory site-specific training. MSHA Inspectors will issue citations for incomplete 8 hour annual safety training.

**SITE-SPECIFIC TRAINING:** The employer is required to provide at least 1 hour of site-specific training to their miners annually. As outlined in your MSHA approved Training Plan, your training must address transportation and communication controls as well as changes in the mine environment, etc. Site-specific training is required to fulfill the Annual Refresher Training requirements.

**MULTIPLE LOCATIONS:** Miners who work at multiple locations must have site-specific training **FOR EACH LOCATION**, and this must be documented on the training certificate.

**Optional Truck Driver Breakout Sessions** are again being offered at the NSCNEC Regional Training Center in Concord, NH on 2 different occasions in February and March. This 3 hour breakout session is held in a separate training room and focuses entirely on subject matter related to truck driving to make the refresher course more relevant for anyone who has driving responsibilities.

\*Cities and towns should refer to the Mine Act to determine if their sand & gravel operations would be subject to the 1977 Miners Act, and would therefore be expected to meet annual MSHA refresher training for their miners. Cities and towns that operate screeners and/or crushers to process material, and then take that material off-site to apply to public roads or other worksites **DO** fall under MSHA jurisdiction. Towns and cities that **purchase** sand and gravel for their roadways and other projects (instead of producing it themselves) **DO NOT** fall under MSHA jurisdiction.

Contact NSCNEC at 1-800-834-6472 or [info@nscnec.org](mailto:info@nscnec.org) **Register online!** [www.nscnec.org/msha](http://www.nscnec.org/msha)

# MSHA 2025 NEW MINER Training Schedule

All **NEW MINERS** are required by MSHA to **complete 24 hours of training in their first 90 days** of employment. MSHA requires at least 4 hours of training (including the "Rules to Live By" segment) be conducted **BEFORE** a new employee can enter a mine site. NSCNEC offers an 8 hour New Miner program that includes "The Rules to Live By" training and can assist mines in delivering a portion of the 24 hour New Miner training required by MSHA.

All 2025 MSHA NEW MINER Sessions run from **7:30 am to 4:30 pm**

<b>NEW MINER</b>	<b>April 22, 2025 (Tues)</b>	<b>MSHA– New Miner</b>	<b>NSCNEC, Concord, NH</b>
	<b>May 23, 2025 (Fri)</b>	<b>MSHA– New Miner</b>	<b>NSCNEC, Concord, NH</b>
	<b>June 6, 2025 (Fri)</b>	<b>MSHA– New Miner</b>	<b>NSCNEC, Concord, NH</b>
	<b>July 11, 2025 (Fri)</b>	<b>MSHA– New Miner</b>	<b>NSCNEC, Concord, NH</b>

## Get the Training You Need!

The National Safety Council—NEC offers other workplace safety training that may be used towards meeting a new miner's training requirements including First Aid certification, OSHA 10 Hour classes, etc.

To view all of our upcoming classes and register online, visit our website [www.nscnec.org](http://www.nscnec.org)

For scheduling or registration questions please contact NSCNEC at 1-800-834-6472 or [info@nscnec.org](mailto:info@nscnec.org)

To view all of our upcoming classes, visit our website [www.nscnec.org](http://www.nscnec.org)

**REGISTRATION AND CANCELLATION POLICY:** Advance registration for MSHA classes is required. There will be no refunds for participant cancellations and no-shows, however, other participants can be substituted or dates changed given at least 24 hours notice. NSCNEC reserves the right to cancel any class for reasons of inclement weather or class sizes of less than 10, in which case a full refund will be given or credit for a future class, if preferred.

Our office recognizes the important role that many of you have in keeping our winter roads plowed and sanded. In the event of predicted inclement weather, an announcement to re-schedule the class will be made by noon the day before the class date. Registrations for the cancelled class will then be transferred to another requested class date.
